

Want to make or host a suggestion box for the Envision Division Art Series?

YOUR VOICE MATTERS!

GIVE YOUR INPUT ON THE FUTURE OF DIVISION

Take the survey, give comments at suggestion boxes, or host a suggestion box of your own!

DESIGN/BUILD WORKSHOP

Saturday, August 23, 1:00 pm - 4:00 pm

at Field Work Design, Division & 26th Ave

Come to a fun Community art event to build your own birdhouse suggestion box or help create the public art installations. (See reverse for general specifications on size of birdhouse). You can keep your birdhouse afterwards or donate it to a larger community art installation.

Have building materials? Not required, but if you have materials, things like hinges, knobs, wood, old radios, picture frames, scrap metal, hasps, locks, etc. may make great additions...

How can you host a suggestion box?

1. Sign up to host a suggestion box location for the month of September.

If you are a business on or near Division, we can help you make or acquire a box and customize it. If you are a resident, you can make your own using our specs (on reverse) - come to the workshop for assistance!

2. Check box 1-2x weekly to make sure box stays stocked with materials & is safe from vandalism
3. Gather suggestion cards weekly, keep in a prepaid return envelope and return them to Architecture for Humanity on October 1st

We will gather all data, share it with the community and the city and use this info to help inform recommendations for future design and planning recommendations.

Division Design Initiative www.divisiondesigninitiative.org

What to give input now?

Take the survey! <http://divisionperception.suprmap.org>

MINIMUM SIZE REQUIREMENTS

SHAPE ALTERNATIVE

"Mad Lib" postcards need a protected place to sit. Direction of postcards will determine orientation of your box shape. See "Shape Alternative" for orientation options.

One side of box should have a hinged panel with option to lock to keep submissions secure until collected.

Roof can be any shape you wish!

Backside must be made of a material that can take a nail or screw in order to attach brackets or angles for mounting.

Business logo can be placed on sides of box within a 2"x3" space.

Project Info and Instruction cards need to be visible on sides (or front) of box. They are separated into two panels for flexibility on installation location. They could be attached next to each other as shown or one on each side.

Use the stencil provided to paint the project's logo onto your box to show visitors it is part of the Envision Division project.

THE REST IS UP TO YOU!

Paint it, stain it, decorate it to make it your own. You might represent your business or preferred design styles for Division buildings (modern, vintage, colorful, simple, industrial, craftsman, etc...be creative and have fun!)
