**Note on Privacy of Survey Respondents:** Every attempt to remove any personally identifiable information has been made to the extent feasible without removing any content (example: references to location of residence or business, specific business name or type, etc.)

**Key:**

Study Area = Division Street & back side of blocks North and South between 11-60th

Adjacent Residential = 1-10 blocks on either side of Division

Occupation = Coded by category

Age = Range

**Full question:** Thank you! We appreciate your taking the time to share your feedback on these important issues. Your input will help inform efforts and design recommendations being considered by a new inter-neighborhood collaborative called the Division Design Committee. To learn more about the Division Design Initiative, upcoming activities and events, please visit [www.divisiondesigninitiative.wordpress.com](http://www.divisiondesigninitiative.wordpress.com) or email [ilovedivision@gmail.com](mailto:ilovedivision@gmail.com). A summary of final results from this survey will also be shared with the Bureau of Planning & Sustainability for consideration in their current Mixed Use Zoning Advisory Committee work and updated to the Comprehensive Plan. If you would like to be added to the Division Design Initiatives mailing list, or become involved in some capacity, please send your email address to [ilovedivision@gmail.com](mailto:ilovedivision@gmail.com). or list it below

21	The last slot on Division/11th on the right, headed West. It should NEVER have anyone park there, because that means the entire intersection often unnecessarily backed up, and can often jam 12th/Division. SE Clinton West of Milwaukie. 66	This is a really long survey and is only on the internet, in English. There are many people in Portland who do not read and write English, and others without internet access. And very few people have the time to answer such a long survey. The results must therefore be viewed as the opinions of only a small fraction of citizens, who may not be representative of the city or neighborhood as a whole.	1271		5					30-39	Healthcare Practitioners and Technical Occupations
67	The neighborhood elementary school is overflowing. Our neighborhood lacks easy access to: a community center, swimming pool, library, nice large park, outdoor public park water feature for those hot summer days and a post office. I would love to see rules that prevent the disturbance of healthy urban trees over 20 feet tall in the name of profit.	1276	Y	10	Y	N			40-49	Management Occupations

74	The street is too narrow to deal with the traffic that flows down this street, especially with the bump outs that have recently been added. I think the city needs to consider making Division a one way street for safety - at least between 39th to 12th. It's too narrow - buses are starting to drive down the middle of the street. Also the city needs to address getting more crosswalks, asap.	1382	Y	10	Y	N			40-49	Arts, Design, Entertainment, Sports, and Media Occupations

153	Good luck to DDC. The RNRG (I supported) are to be congratulated. But Division is no longer the Main Street that I loved in my neighborhood. Yes, the city will "consider" this survey & ignore it. There are other more creative ideas than big mixed-use buildings! Portland is now a one-size-fits-all development & density-above-all city & our neighborhood is paying an exceptional price on Division.	1797	Y	20	Y	N			50-59	Nonprofit
154	Sorry for incomplete survey - ran out of time..  City regulations regarding land use will have to change in order to help preserve the unique character of Portland neighborhoods, and to provide some balance between what's good for developers and what's good for neighborhoods. 245	Compiling the results of this survey must be a lot of work. Fully open-ended data is exhausting for both the surveyor and the respondent. (My ["spouse"] was pretty angry when it crashed after she'd worked on it for an hour.) Multiple questions in one box? Why not also use radio buttons, questions with which respondents could agree/disagree by degrees? 269	This is all well and good, but do you folks really care about what a long term resident thinks? I mean I one person. I don't have big bucks to toss around. Money always talks. Look at the horrible high density growth did to Division. It's ugly. But hey as long as people can be trendy let's do it! If you build it they will spend money and we can tax them. Again, horrible!	2869	Y	2	Y	N		no answer	50-59	No Answer
